

数据通信电话线 Data communication line

1 执行标准 Executive Standard

本产品按QJ/ZDX 0013—2012《聚乙烯绝缘聚氯乙烯护套通信电话线》标准生产
The product should be manufactured according to QJ/ZDX 0013—2012《Polyethylene insulated PVC sheathed communication lines》

2 适用范围 Application

适用于电话通信布线系统楼层布线架至用户电话住处口之间的连接，也可用于程控交换机之间的连接及其他通信设备之间的互联，也用于用户终端电话、传真、数字电话、ADSL接入等终端系统。
Apply to telephone communication wiring system building cabling to user place the connection between the mouth, can also be used for the connection between the PBX and other interconnection between telecommunication equipment, also used for telephone, fax, digital telephone user terminal, such as ADSL access terminal system.

3 产品特点 Properties

本产品采用最新工艺，严格按照国家标准或行业标准结构设计制造，具备以下几个特点：①导体采用电工用优质铜材，阻抗小，衰减小；②聚乙烯绝缘，性能稳定，绝缘效果好；③高档聚氯乙烯护套，耐磨损，抗老化，使用寿命长。

This product uses the latest technology, is accordance with the national standard or industry standard for structure design and manufacture, has the following characteristics; ① using electrical conductors with high quality copper, small impedance, attenuation is small; ② Polyethylene insulation, stable performance, good insulation effect; ③ High-grade PVC sheathed, wear resistance, anti-aging, long service life.

4 产品型号、名称及生产范围

Cable model , designation and manufacturing scope refer

| 型号 Model | 名称 Name | 备注 Note |
|------------|---|---------|
| NEX3-345-1 | 两对数字通信电话线 digital communication lines with two pairs | |
| NEX3-325-1 | 一对数字通信电话线 digital communication lines with one pair | |
